**The Statistics, Published works and Human Rights Activists in Iran**

# Human Rights violations in Iran Yearly Statistical – Special Year 2011

In a prediction report, it contains Statistical Data (2010-2011) of Human Rights violations in Iran. The statistical basis of this report, that has been prepared, will provide analytical, statistical efforts of institution, and the publication of [Human Rights Activists in Iran](#).

Certainly, due to the Iranian government not allowing human rights defenders to work properly in reporting Human Rights violations and preventing the free flow of information, it does not recognize the independence of the civil activities, and at the moment, reporting these issues are something with many limitations, difficulty and dangerous in Iran.

Obviously, in such situation for Human Rights defenders, despite great difficulties, only a very small volume of human Rights violations are being monitored, researched and documented in relation to media reports, and finding other groups. However with regards to the restrictions, we can't deny the analytical error of the content, but the Human Rights entity have known the statistical content and analysis reports with %3 margin of error, rare in its own kind.

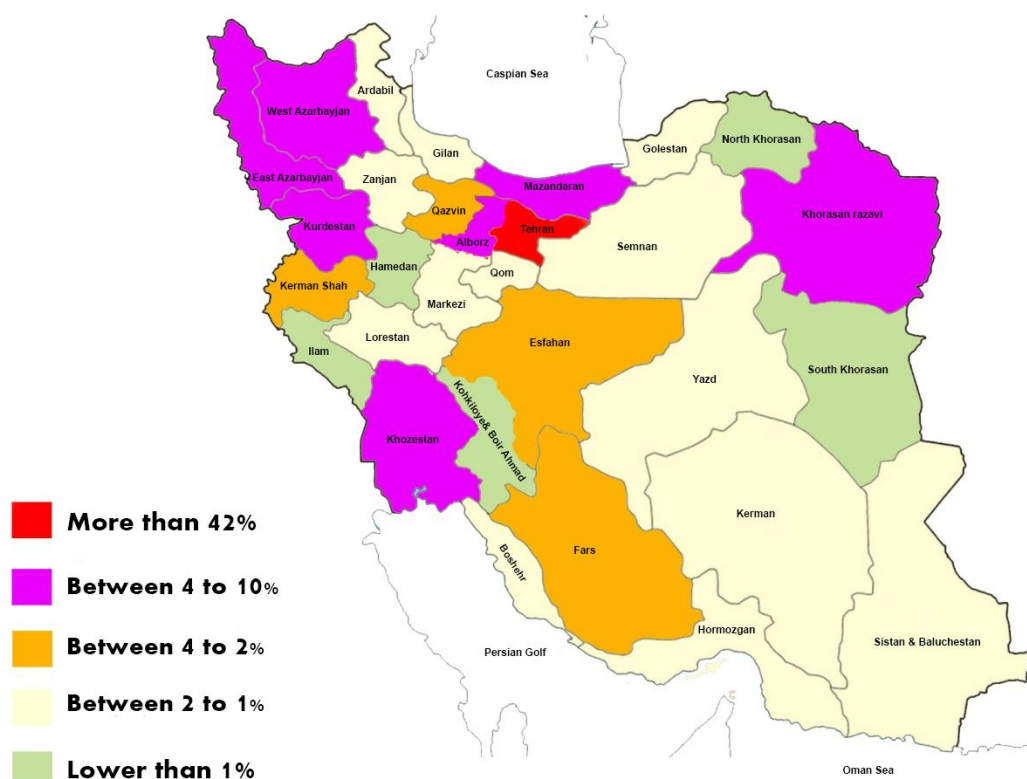

As in the first section of the report, it is necessary to notice the human Rights group activities and effort in Iran to improve the reporting of human Rights violations, however, statistics can make dramatic differences in terms of the reports focused on the center of the country compared to other parts of the country as one of the weaknesses of Iran's civil society entities.

With regard to the Human Rights statistics, 1120077 cases of Violation and protocols documented in Iran with the total reports of 2751, see the map below.

"The separation of different parts of the country based on the focus of Human Rights reporter's activities"

# Human Rights violations in Iran Yearly Statistical – Special Year 2011

The separation of different parts of the country based on the focus of Human Rights reporter's activities

As you can see, there are dramatic differences between the center and other parts of the country, according to published reports.

The terms of the population (Census 1390), Tehran holds 12 million citizens, and other parts of the country holds 62,961,702.

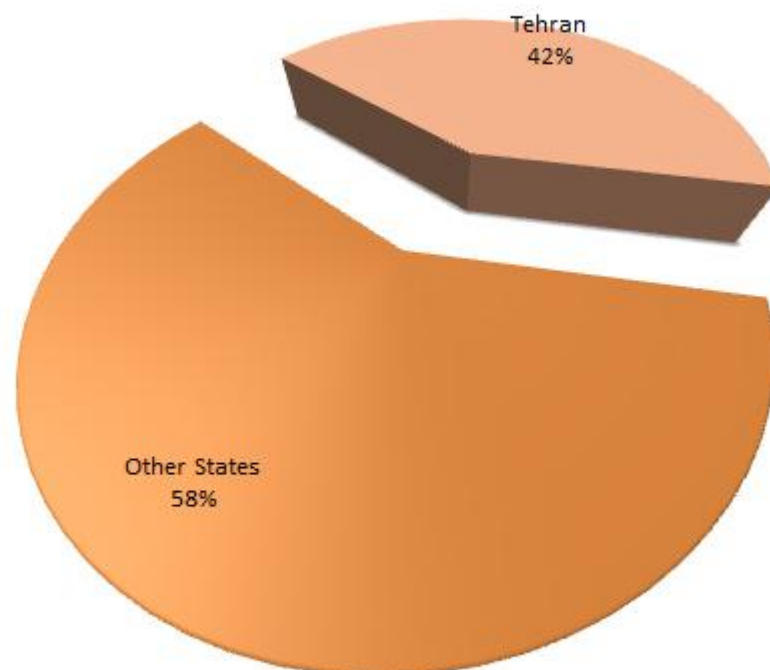

**Tehran's population compared with other provinces**

However, according to Focus on Human Rights Defenders in 2011, 42 percent in Tehran and 58 percent in other parts of the country.
